

The AP8.9 bit amplifier was designed by Audison R&D Department to achieve maximum sound quality in OEM Integration applications.

The powerful management software proves the ability to acquire the bit Drive presets which the Audison team fine-tuned specifically for your car.

Thanks to the innovative power supply stage, a power of 520 W total can be achieved in an extremely compact case.

The non-amplifiable ninth channel can be used to drive a subwoofer via the mono AP1 D amplifier.
